VINYL PROTECTION

### Care and Cleaning Guide for Palette vinyl

**Step 1** (eye shadow, mascara, grease, black felt tip pen, crayon, chocolate, suntan lotion, hair and body oils\*):

Remove excess spill with a damp cloth. Clean with a 1:1 mix of liquid soap and water. Next, rinse with clean water and dry.

**Step 2** (red lipstick):

Use a straight application of concentrated cleaners such as *Corium vinyl cleaner*. Wipe with a clean cloth, rinse with water, and dry.

**Step 3** (blood, urine, feces, oil base paint, tar, and asphalt):

Use a 1:1 mix of ammonia and water, or a 1:4 mix of bleach and water. Rinse with clean water and dry.

**Steps 4 & 5** (all other tough stains):

**Step 4:** Use a straight application of naphtha (lighter fluid). Rinse thoroughly with clean water and pat surface dry.

**Step 5:** Use a 1:1 mix of isopropyl alcohol and water. If the stain persists, use straight alcohol. Rinse thoroughly with clean water and pat dry.

**Note:** For cleaning that requires step 4 or 5, use a soft cotton cloth saturated with the cleaning material and rub the stain in circles 10 times. Pat dry with another soft cotton cloth and check the results.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible.

*\*Must be cleaned after each instance of exposure to hair and body oils.*
